

“ My years of racing have proved to me that riding skills take years to master, require constant practice and there is always the room for development. BikeSafe is an excellent scheme and a great way to start improving your riding, get more from your bike and help make you safer //

Neil Hodgson - Motorcycle Racer

“Bridging the Gap”

## WHAT IS IT?

BikeSafe is a National Police run motorcycle scheme, aimed at working with bikers in a relaxed environment. The idea is to raise awareness and to create a genuine desire for you to progress to accredited post test training. The end result - a reduction in casualties.

**\\ Lifetime skills helping to create a safer riding environment //**

**Education in partnership with the road user**

## WHAT WILL IT ENTAIL?

The format of BikeSafe workshops may vary in different parts of the country but all contain information on real life needs:

- Attitudinal issues
- Systematic methods
- Collision causation
- Cornering
- Positioning
- Overtaking
- Observation
- Braking
- Hazard perception
- Use of gears

A BikeSafe workshop will include an on road observed ride with a police motorcyclist or approved BikeSafe observer. It's fun and the benefits could last a lifetime.

## WHAT DOES IT GIVE YOU?

- A taste of safer motorcycling techniques
- An observation of training needs
- A certificate of completion
- An opportunity to benefit from incentives

## AND IMPORTANTLY

It helps you identify your strengths and weaknesses in preparation for training by recognised accredited providers.
